# 1892—INTRODUCTION—1892

---

Catalogue "B" is the second issue of our Illustrated Catalogues devoted exclusively to Sanitary Plumbing Specialties; in 1889 we published Catalogue "A," consisting of a few pages illustrating some of our leading specialties. These specialties, particularly the Ideal Lavatory and Bath Waste and the "Sypho" Water Closet, have since become widely and favorably known, enjoying the preference of many leading architects and plumbers who unhesitatingly recommend their use where superior quality is a consideration.

The very liberal patronage we have received has enabled us to greatly improve both the quality and design of our goods, and encouraged us in the determination to furnish only such material as will be deserving of adoption for the finest work, whether in private residence or public building.

Architects and others writing specifications should designate each article specified as McCAMBRIDGE & CO., LIMITED, Plate—B.

When ordering goods always order by plate number in this Catalogue.

In conclusion we desire to state that our showrooms, containing many high class plumbing fixtures, are always open to the public for inspection.

---

## ∴ ∴ TO THE TRADE ∴ ∴

---

The prices in this Catalogue supersede all previous lists.

All goods are shipped at purchasers' risk; our responsibility ceases when goods are delivered at the depot or wharf in Philadelphia and properly receipted for by the transportation agent. Boxing charged at cost.

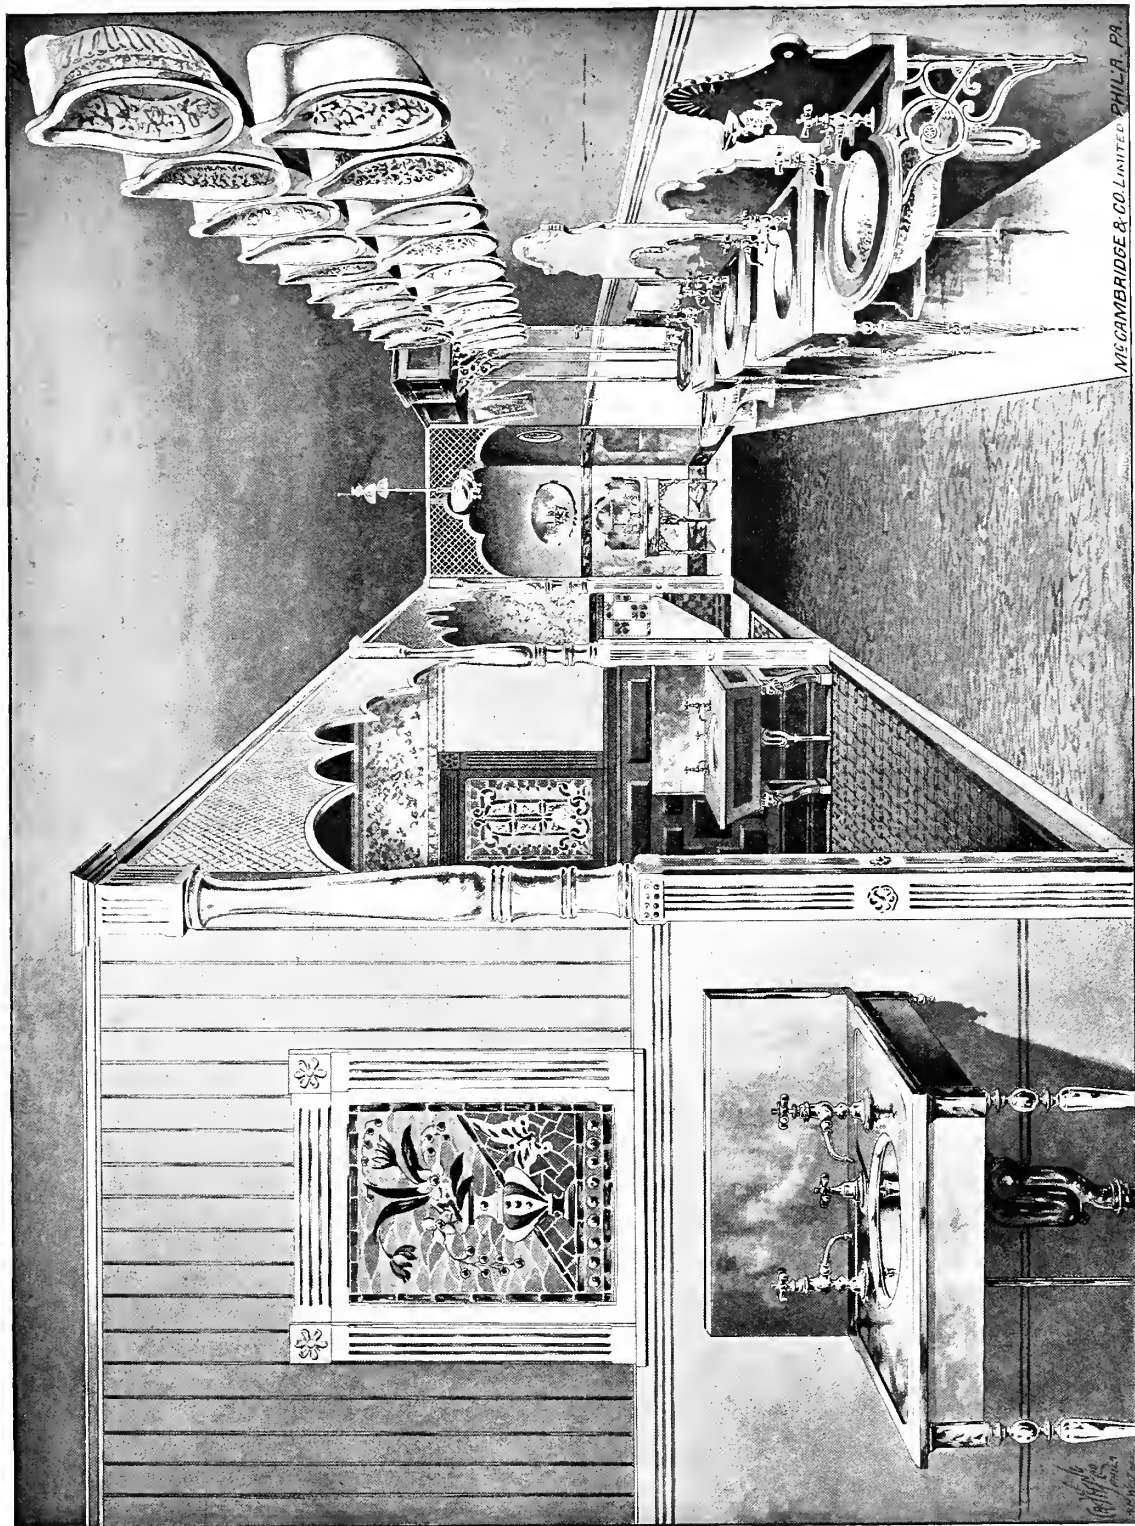

All claims for corrections or deductions must be made within 10 days after receipt of goods.

In case of an error in shipment or a desire on the part of our customer to return goods for any reason, we particularly request that we may be conferred with before such return is made.

Respectfully,

McCAMBRIDGE & CO., LIMITED.

## THE "IDEAL" BASIN AND WASTE.

PATENTED.

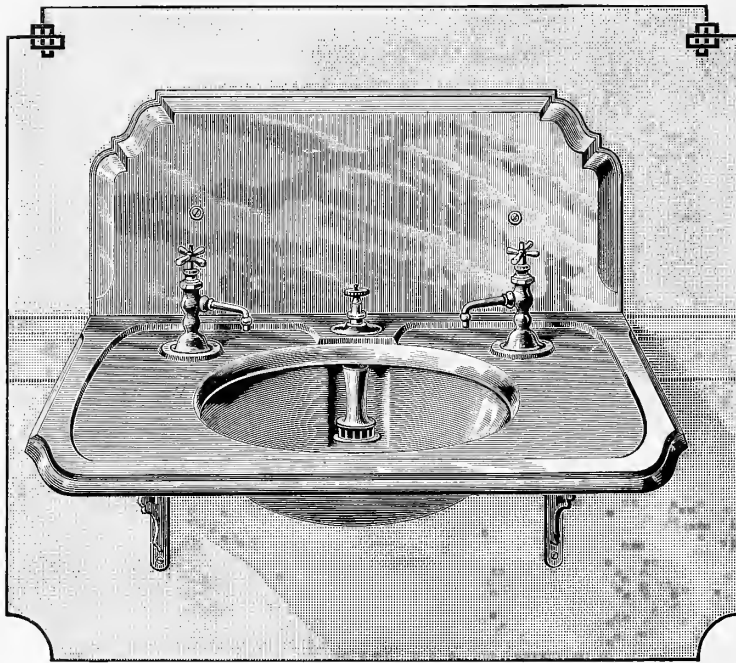

PLATE 1—B.

It is scarcely necessary to attempt the enumeration of all the many defects existing in Wash Basins and Bath Fixtures, as heretofore made, troublesome chains and plugs, contracted waste outlets, inaccessible and offensive overflows, becoming more foul each day, are matters too familiar to most persons to require further comment.

The Ideal Wash Basins and Baths are free from all these objectionable features; all the parts are exposed to view, the overflow pipe being set in a recess in either basin or bath does not in any way interfere with the bather.

The large outlet secures a quick discharge of waste water from the basin or bath, thoroughly scouring the trap and pipes.

The overflow pipe and the cup which forms the trap (shown in Plate 2—B) can be readily removed and cleaned; when the pipe is resting upon its seat this cup traps the entire fixture to its mouth; it is not designed, however, to supersede the regular trap commonly used, but is simply an extra precaution against the passage of foul air.

# THE "IDEAL" BASIN AND WASTE.

PATENTED.

SECTIONAL VIEW.

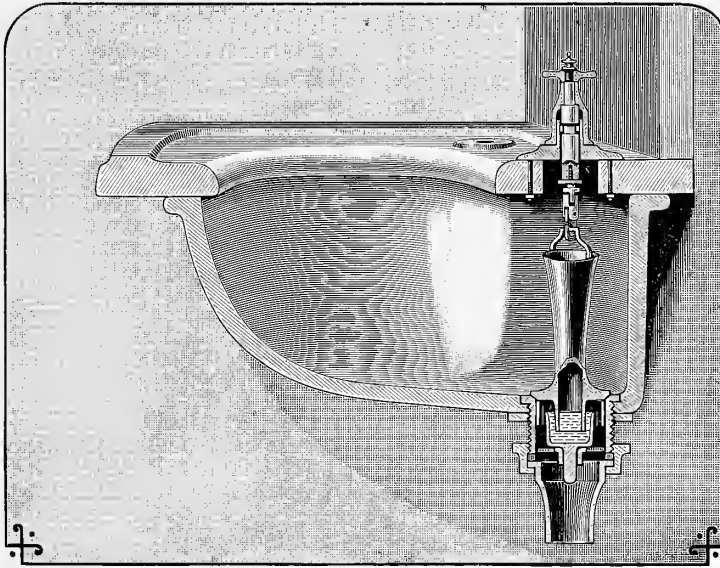

PLATE 2—B.

	ROUND.	OVAL.	OVAL.
Size of Ideal Basins outside of flange (including recess) . . . . .	14 x 16½	18 x 18	20 x 19

ALL MARBLE LAVATORY

WITH "IDEAL" BASIN AND WASTE.

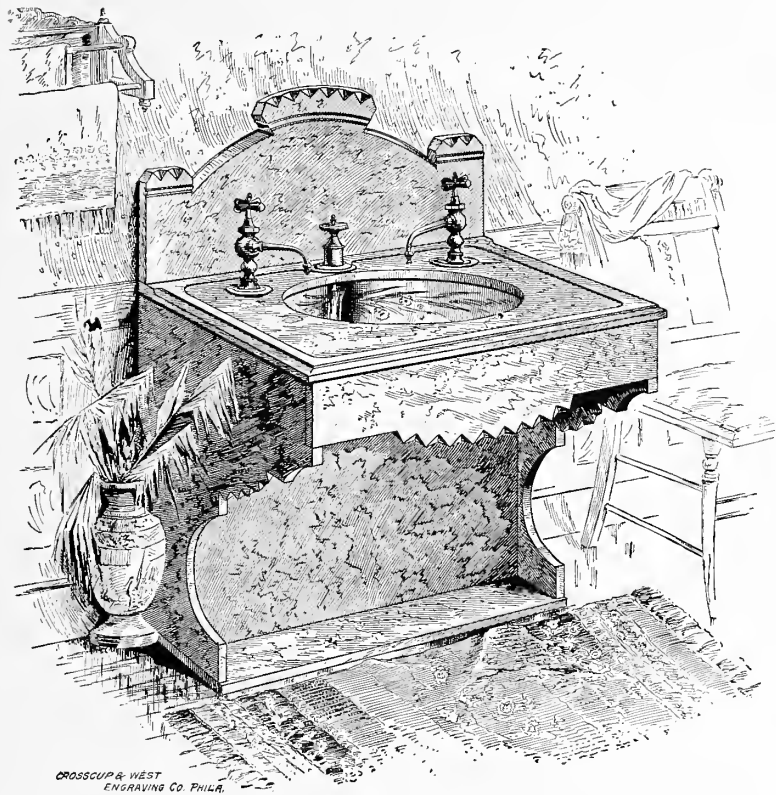

PLATE 5-B.

This Lavatory consists of countersunk marble slab with fancy back, supporting sides, apron, floor slab and loose front piece (to conceal trap and pipes), oval Ideal basin and waste, and No. 3 compression basin cocks; no trap included. Marble slab is 30 x 21 inches, 1 1/4 inch thick, with 16 inch back, but can be had in other sizes.

PRICES COMPLETE AS SHOWN.

	WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work, nickel plated . . . . .	\$64.50	\$73.50
“ “ “ “ silver plated . . . . .	69.50	78.50

If with ebony or ivory four arm handles on waste and basin cocks, add \$4.50.  
If with decorated basin, add difference between plain and decorated. See page 6.

Prices of above in fancy marbles furnished on application.

OPEN LAVATORY ON LEGS

WITH "IDEAL" BASIN AND WASTE.

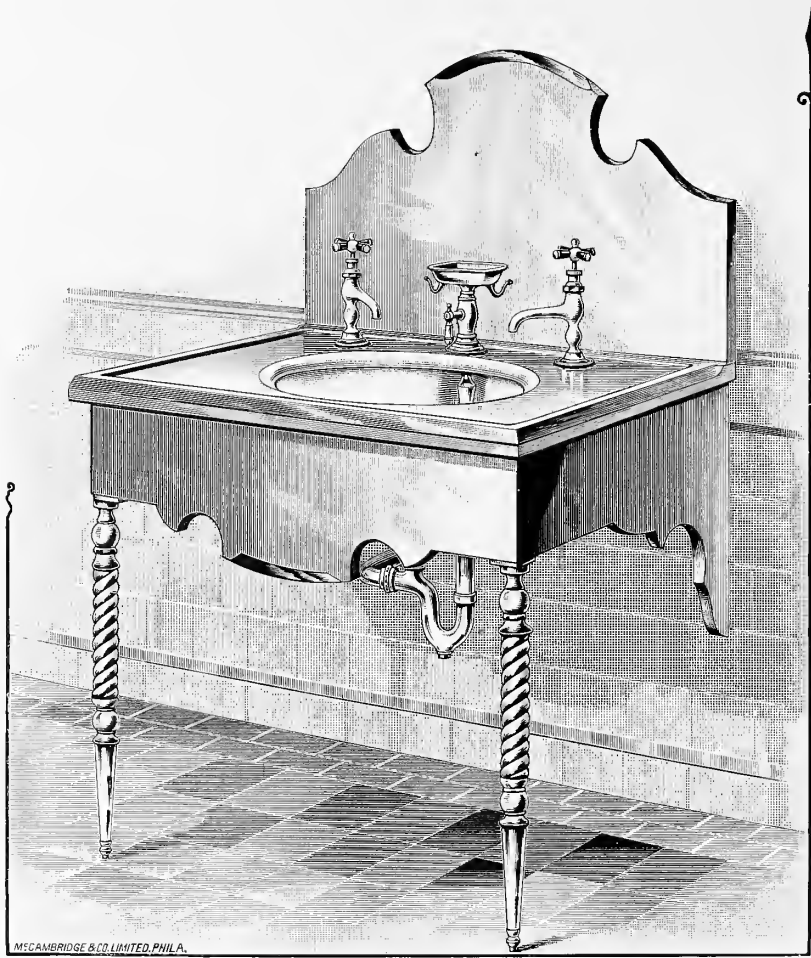

PLATE 6-B.

This Lavatory consists of countersunk marble slab, fancy back, front and side aprons, oval Ideal Basin and Waste with soap cup lift, No. 4 compression basin cocks with stuffing boxes, No. 5 brass legs and No. 1 brass trap.

Marble slab is 30 x 21 inches, 1 1/4 inches thick with 15 inch fancy back and 5 x 14 inch bracket aprons, but can be had in other sizes.

PRICES COMPLETE AS SHOWN.

	WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work nickel plated	\$61.50	\$67.00
“ “ “ “ silver “	76.00	81.50

Lacquered brass work same price as nickel plated.

If with ebony or ivory four arm handles on basin cocks and single handle on waste, add \$3.50  
If wanted with decorated basin, add difference between plain and decorated. See page 6.

Prices of above in fancy marbles furnished on application.

# OPEN LAVATORY ON LEGS.

WITH "IDEAL" BASIN AND WASTE.

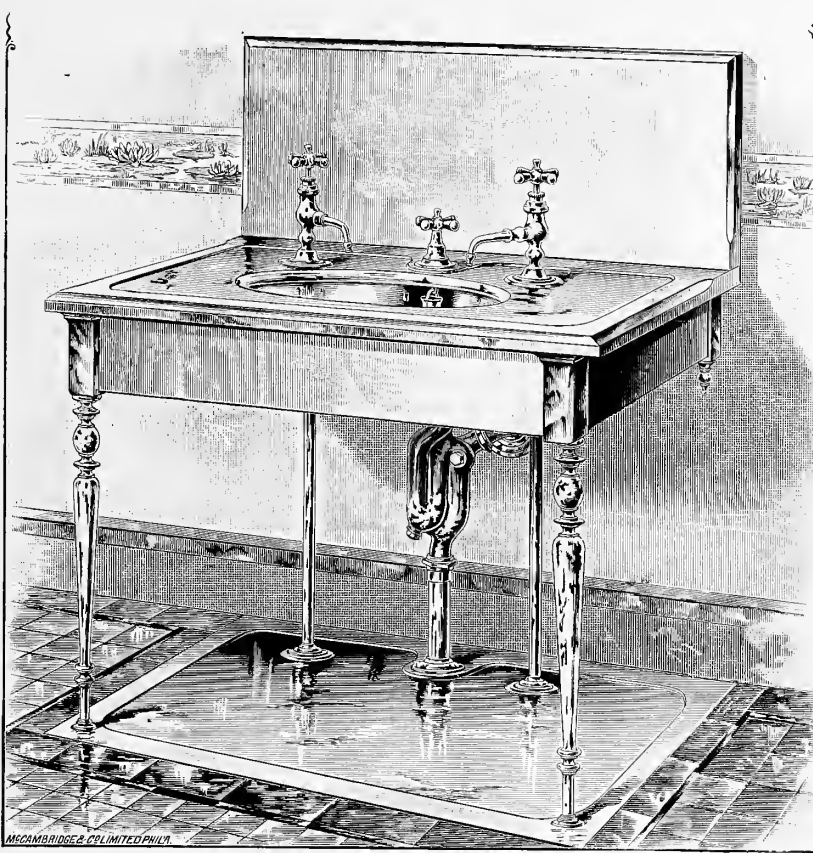

PLATE 7-B.

This Lavatory consists of countersunk marble slab, square back, aprons front and both ends, oval Ideal basin and waste, No. 3 compression basin cocks with stuffing boxes, No. 10 brass legs, wall apron sockets, brass "serpentine" trap waste and supply pipes to floor.

Marble slab is 30 x 21 x 1 1/4 inches thick, with 15 inch back and 5 inch aprons, but can be had in other sizes.

## PRICES COMPLETE AS SHOWN.

(EXCEPT FLOOR SLAB.)

	WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work nickel plated . . . . .	\$59.00	\$62.00
" " " " silver " . . . . .	77.50	80.25
Lacquered brass work same price as nickel plated.		
If with ebony or ivory celluloid four arm handles on basin cocks and waste . . . . .	add \$ 4.50	
If with 30 x 21 x 1 1/4 inches countersunk Italian floor slab . . . . .	" 8.00	
If with 30 x 21 x 1 1/4 " " pink Tennessee floor slab . . . . .	" 10.00	

If with decorated basin, add difference between plain and decorated. See page 6.

Prices of above in fancy marbles furnished on application.

FANCY OPEN LAVATORY ON BRACKETS  
WITH "IDEAL" BASIN AND WASTE.

PLATE 8-B.

This Lavatory consists of countersunk marble slab, fancy back, embossed oval Ideal Basin and Waste, No. 3 compression basin cocks with stuffing boxes, fancy bracket soap cup, No. 1 brass brackets and brass "Bonair" trap.

Marble slab is 26 x 21½ inches, 1¼ inch thick with 18 inch back, but can be had in other sizes.

PRICES COMPLETE AS SHOWN.

EXCEPT WITH BASIN PLAIN INSIDE.

	WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work nickel plated . . . . .	\$52.00	\$55.00
" " " " silver plated . . . . .	68.00	72.00

Lacquered brass work same price as nickel plated.

If with ebony or ivory celluloid four arm handles on basin cocks and waste, add \$4.50.  
If with decorated basin, add difference between plain and decorated. See page 6.

Prices of above in fancy marbles furnished on application.

OPEN LAVATORY ON BRACKETS.

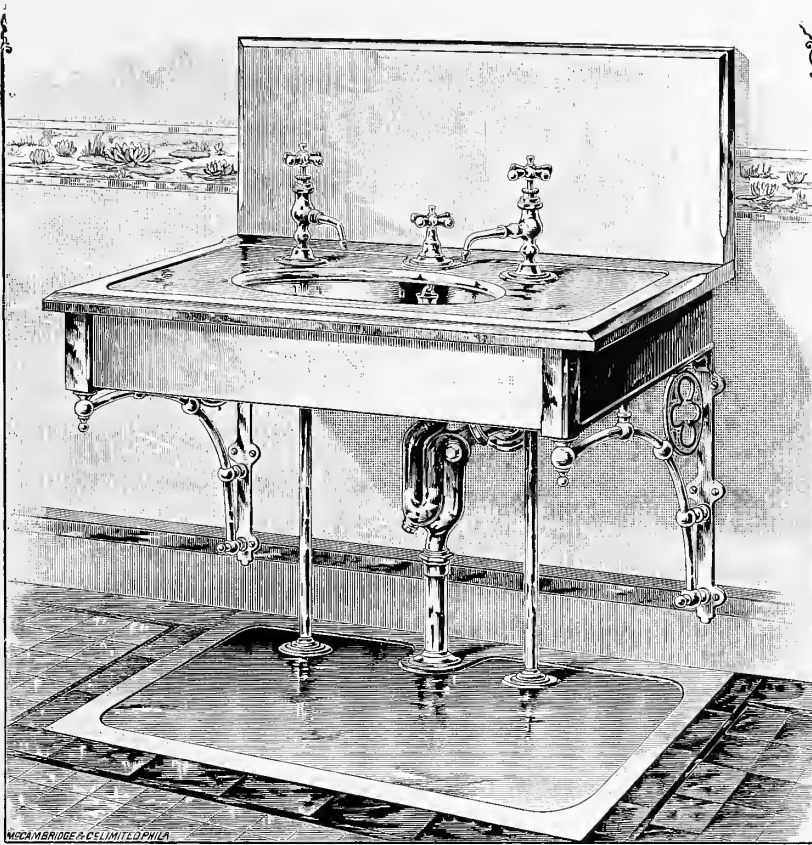

PLATE 9-B.

This Lavatory consists of countersunk marble slab, plain back, apron front and sides, oval Ideal basin and waste, No. 3 compression basin cocks with stuffing boxes, large brass apron brackets, brass serpentine trap, waste and supply pipes to floor.

Marble slab is 30 x 21 inches, 1 1/4 inch thick, 15 inch back and 5 inch aprons, but can be had in other sizes.

PRICES COMPLETE AS SHOWN.

EXCEPT FLOOR SLAB.		WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work, nickel plated . . . . .		\$57.50	\$60.50
“ “ “ “ silver plated . . . . .		73.00	76.75
Lacquered brass same price as nickel plated.			
If with ebony or ivory four arm handles on basin cocks and waste . . . . .	add \$	4.50	
If with 30 x 21 x 1 1/4 inch countersunk Italian marble floor slab . . . . .	“	8.00	
If with 30 x 21 x 1 1/4 “ “ pink Tennessee marble floor slab . . . . .	“		10.00

If with decorated basin, add difference between plain and decorated. See page 6.

Prices of above in faucy marbles furnished on application.

## OPEN CORNER LAVATORY

WITH "IDEAL" BASIN AND WASTE.

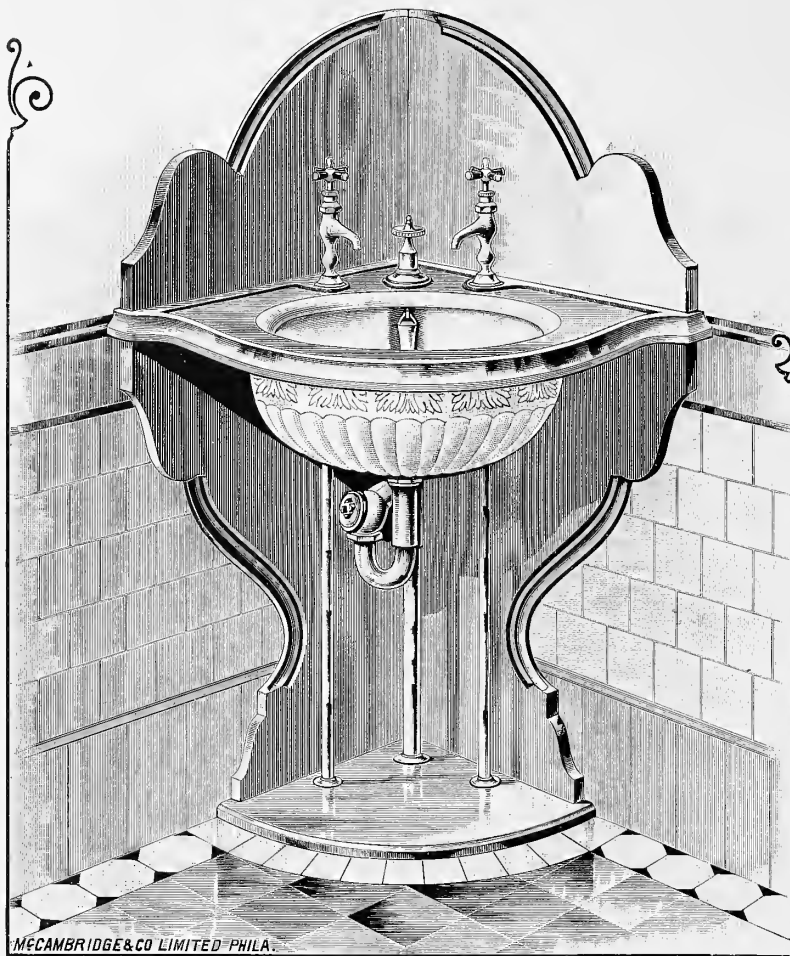

PLATE 10-B.

This Lavatory consists of countersunk marble slab, fancy backs, supporting sides and base, embossed oval Ideal basin and waste, No. 4 compression basin cocks with stuffing boxes, brass trap, waste and supply pipes to floor.

Marble slab is 24 x 24 inches,  $1\frac{1}{4}$  inch thick; backs 15 inches high, but can be had in other sizes.

## PRICES COMPLETE AS SHOWN.

	WHITE ITALIAN MARBLE.	PINK TENNESSEE MARBLE.
With all brass work, nickel plated . . . . .	\$68.50	\$76.50
“ “ “ silver plated . . . . .	80.00	88.00

Lacquered brass work same price as nickel plated.

If with ebony or ivory celluloid four arm handles on basin cocks, add \$3.00.

If with decorated basin, add difference between plain and decorated. See page 6.

If without marble floor slab and supporting sides, deduct for white Italian marble, \$20.00; pink Tennessee marble, \$24.00.

Prices of above in fancy marbles furnished on application.

## TILED BATH ROOM INTERIOR.

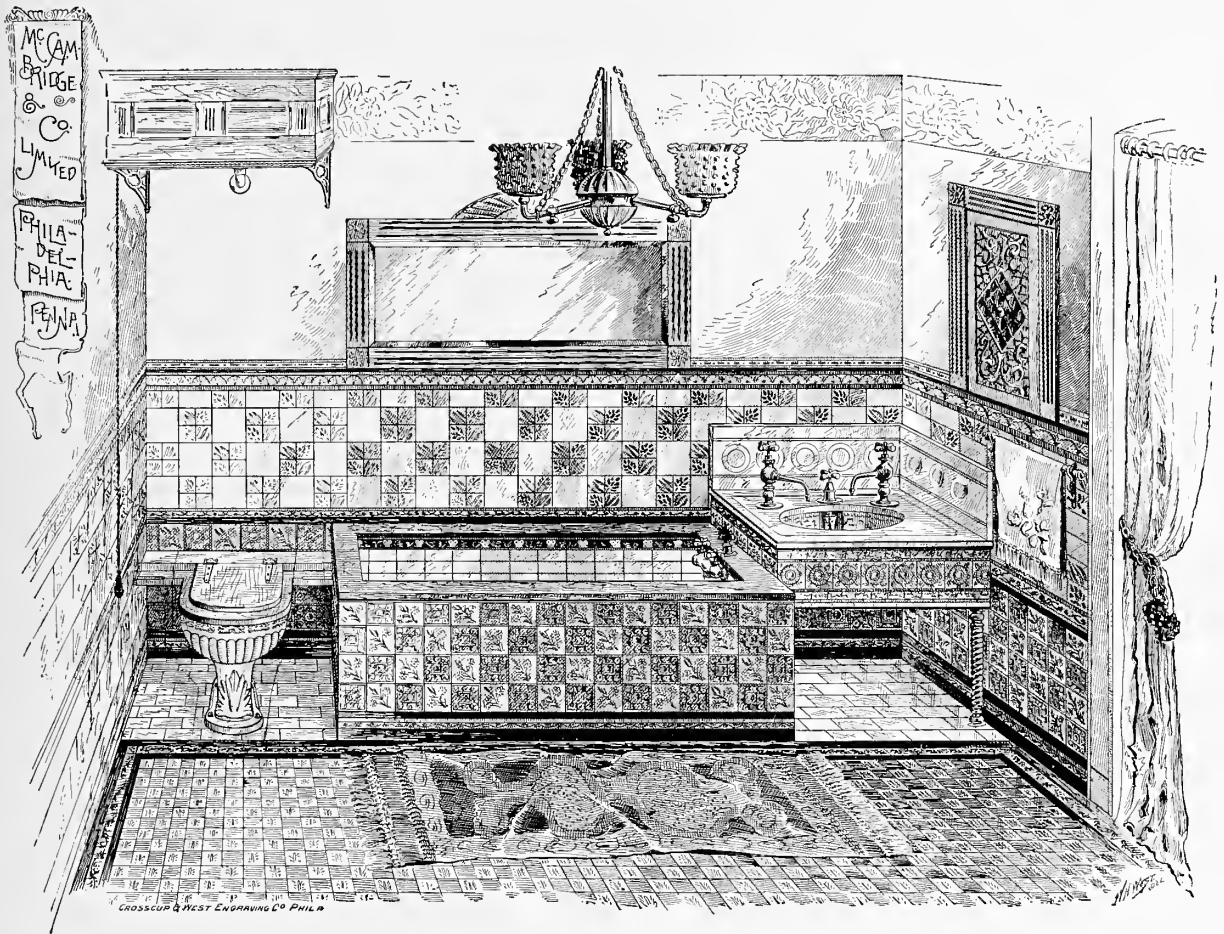

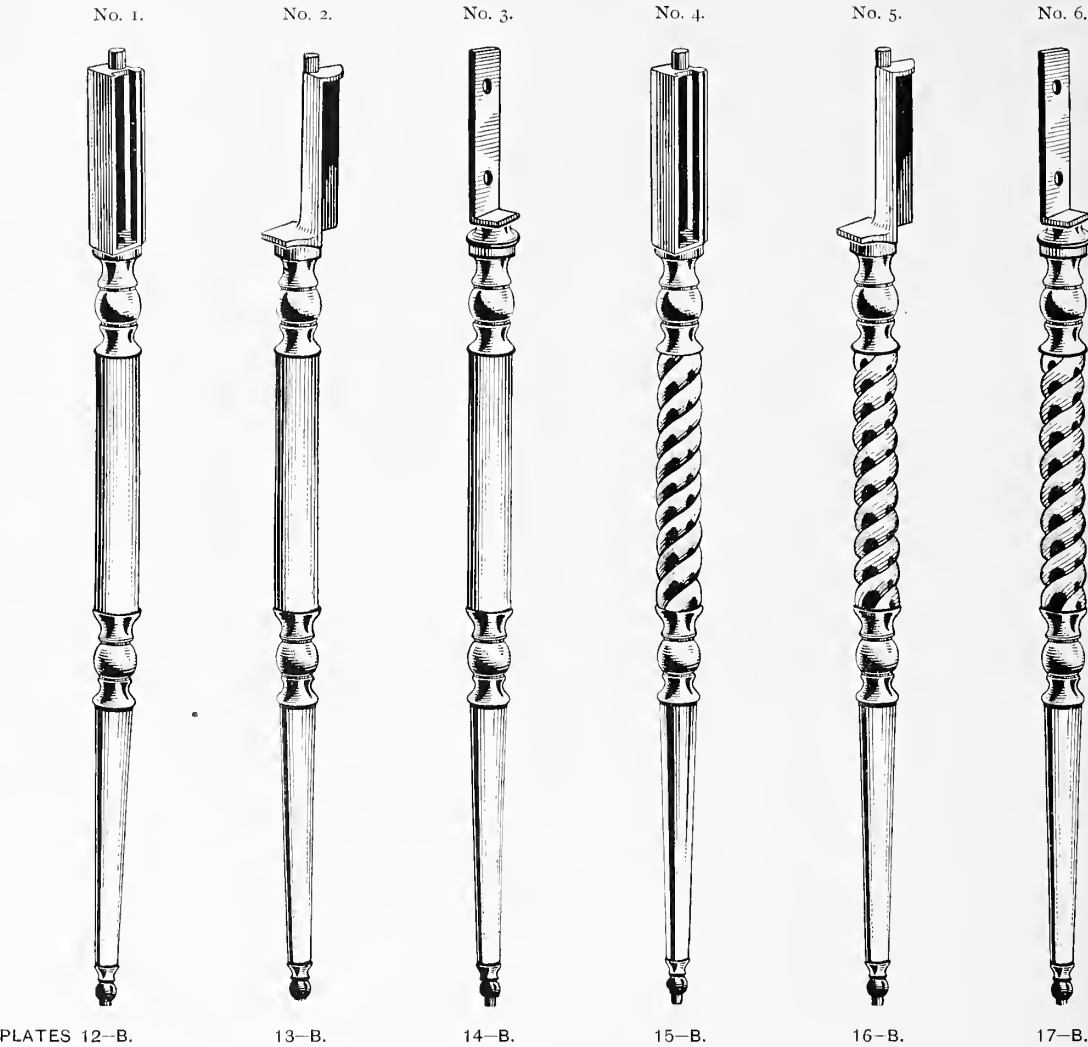

PLATE 11-B.

The above illustration shows a very handsome and artistic bath room finished in tile. The fixtures represented are our improved embossed "Sypho" water closet, tile lined bath tub with Ideal supply and waste fixtures, and tile lavatory with Ideal basin, waste and brass legs.

BRASS LAVATORY LEGS.

Plates . . . . .	12-B	13-B	14-B	15-B	16-B	17-B
Polished brass, per pair . . . . .	\$ 6.50	\$ 6.50	\$ 6.00	\$ 6.50	\$ 6.50	\$ 6.00

If with supply and waste fittings same as on bath, Plate 65—B, polished and nickel plated all over, add \$45.00

## “IDEAL” COMBINATION HIP BATHS.

WITH WAVE AND DOUCHE SPRAY AND PATENT “IDEAL” WASTE.

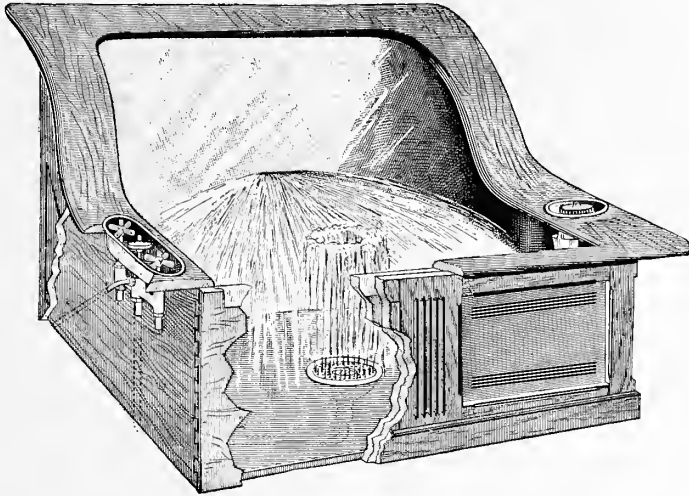

PLATE 72-B.

Unlike other hip baths, the supplies to this bath are all under the control of one hand of the bather. The hot and cold supplies are regulated by the two four arm handles, and the adjustment of the centre handle directs the flow to either the wave in back of bath or to the spray in bottom, or to both wave and spray at the same time. By means of a small thumb screw in Douche spray plate the spray can be changed to a single jet, to which can be attached a small hose if desired. This fixture can be used as a foot as well as a hip bath.

Bath complete, with nickel plated fittings, without hard wood case, copper . . . . . \$60.00  
 “ “ “ silver plated fittings, “ “ “ “ “ . . . . . 68.00

If with ebony or ivory celluloid four arm handles on supplies and waste . . . . . add \$4.50

Hard wood cases for hip baths made to order. Prices on application.

 16 oz. “ “ “ silver plated “ “ “ “ “ “ “ . . . . . 37.85  
 16 oz. “ “ “ without fittings . . . . . 12.00

## THE "IMPROVED SYPHO" WATER CLOSET.

PATENTS AND REGISTERED TRADE-MARKS IN THE UNITED STATES, ENGLAND AND FRANCE.

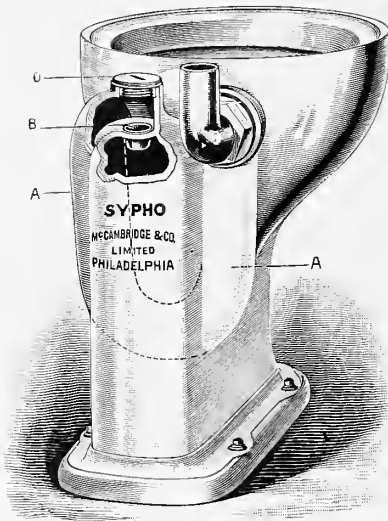

PLATE 74-B.

Back of "Sypho" Closet showing coil or trapped supply A, leading to port B, in dome of syphon.

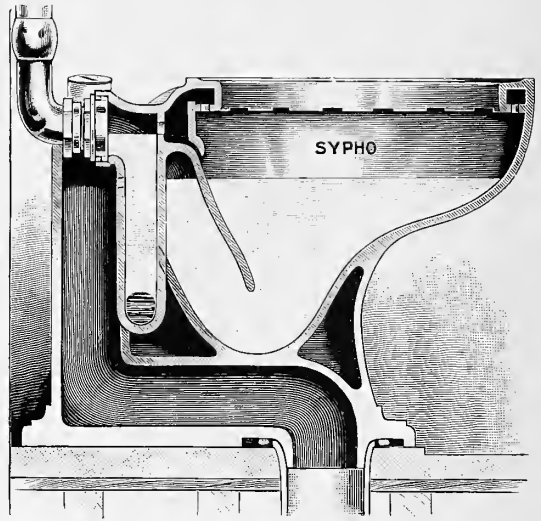

PLATE 75-B.

Section of "Sypho" Closet showing standing water in bowl, and the opening through which the supply reaches the flushing rim, also coil or trapped supply to long limb of syphon.

The "Improved Sypho" Water Closet is an all porcelain syphoning closet, the bowl of which contains a sufficient quantity of water when at rest to form a seal or trap of unusual depth, which cannot be broken by syphonic action, thus rendering "back airing" unnecessary and forming an effectual barrier against the passage of sewer air.

The "Sypho" contains neither wier nor lower trap, and its action is prompt, strong and almost noiseless.

Its operation is simple, and will be readily understood by consulting the accompanying cuts and description. Upon opening the valve in tank, water flows simultaneously to the bowl and through the coil *A* to port *B* in the dome of syphon, *Plate 74-B*; the water which passes through the port *B* quickly expels the air from the long limb of the syphon, creating a powerful syphonic action, withdrawing the contents of bowl, which are driven toward and into the neck or outlet by the force of water from the flushing rim. After the discharge ceases a diminished flow of water from the tank through the flushing rim refills the bowl. *In no case is it possible for the "Sypho" to be left without a seal after use.*

The small trapped waterway shown in section, *Plate 75-B*, will be better understood by first noting its course, as indicated in *Plate 74-B*, where it will be seen to pass from the point where the flush pipe attaches, down one side of the closet thence between the limbs, as indicated by the dotted lines, to the opposite side and extending upward terminates in the port *B*, which discharges into the long limb of syphon. The water seal or trap in coil *A* is even greater than that in the closet bowl, thereby rendering it entirely secure. We desire to call particular attention to the fact that as the coil *A* must be full of water before the refill will run to the bowl, a bowl seal always indicates a seal in coil *A*.

## DIRECTIONS FOR SETTING THE "SYPHO" CLOSET.

*Do not set the "Sypho" directly over a trap.* The "Sypho" has no anti-syphon connection, nor does it require any. Should it be set over the closed or dead end of soil pipe, the bend under the floor *must* be vented. This, however, is rarely necessary, as in modern plumbing the soil pipe is run to the roof. To obtain the best results possible, the flushing tank should be placed directly over the closet, and at an elevation of not less than six feet from the floor, using  $1\frac{1}{4}$  inch flush pipe. When it is impossible to get a tank elevation of over four or five feet,  $1\frac{1}{2}$  inch pipe should be used. In cases where the tank cannot be placed directly over the closet, run the flush pipe as directly to closet as possible, carefully avoiding all abrupt bends.

The centre of floor connection should be 14 inches from face of wall, and *all measurements here given are based upon this location of outlet*, which brings the front edge of bowl  $23\frac{1}{2}$  inches out. If space is limited, outlet may be set 13 inches from wall. The height of "Sypho" is from 16 to  $16\frac{1}{4}$  inches.

## PRICE LIST OF "SYPHO" WATER CLOSET COMBINATIONS.

THE PRICE OF ANY "SYPHO" WATER CLOSET COMBINATION CAN BE MADE UP FROM THE FOLLOWING LIST :

## "SYPHO" WATER CLOSETS ONLY.

## INCLUDING BRASS FLOOR FLANGE AND SUPPLY COUPLING.

Brackets for No. 4 tank . . . . .	JAPANNED IRON. \$0.50 GALVANIZED IRON. \$1.00 BRONZED IRON. \$1.00 POLISHED BRASS. \$3.00 NICKEL PLATED BRASS. \$3.50

LACQUERED BRASS WORK SAME PRICE AS NICKEL PLATED.

## AUTOMATIC WATER CLOSETS.

Any of the above closets may be combined with No. 7 Automatic Tank and Seat as illustrated in Plate 85 B. For prices of Automatic Tanks, Seats and Brackets see page 55. (No. 7 Tank, Illustrated Plate 126 B.)

NOTE

THE STANDARD WATER CLOSET TANK.

WE DESIRE to call particular attention to our Standard Water Closet Tank illustrated on the opposite page, also shown in combination with each of the water closets illustrated in this Catalogue. It is manufactured in a variety of styles, both wood and iron. The time valve used is constructed on the principle of our celebrated Standard Water Closet valves, and is the best in the market. It can be regulated to discharge any amount of water, from one gallon to the entire contents of the tank, and is noiseless in its operation. Directions for regulating valve accompany each tank, which, if followed, cannot fail to secure satisfactory results.

No. 4 STANDARD WATER CLOSET TANK.

WITH NOISELESS TIME VALVE.

Can be regulated to discharge any amount of water, from one gallon to the entire contents of the tank.

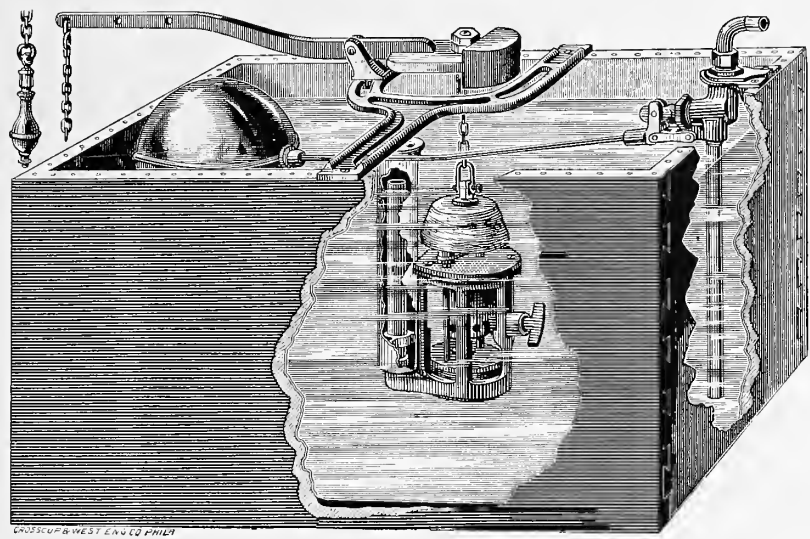

PLATE 123-B.

No. 4 COPPER - LINED STANDARD TANKS.

INCLUDING BRACKETS, CHAIN AND PULL.

	REGULAR.	LARGE.
Outside dimensions, inches . . . . .	24 x 13 x 13 deep.	26 x 13 x 17 deep.

PARTS OF No. 4 STANDARD TANKS.

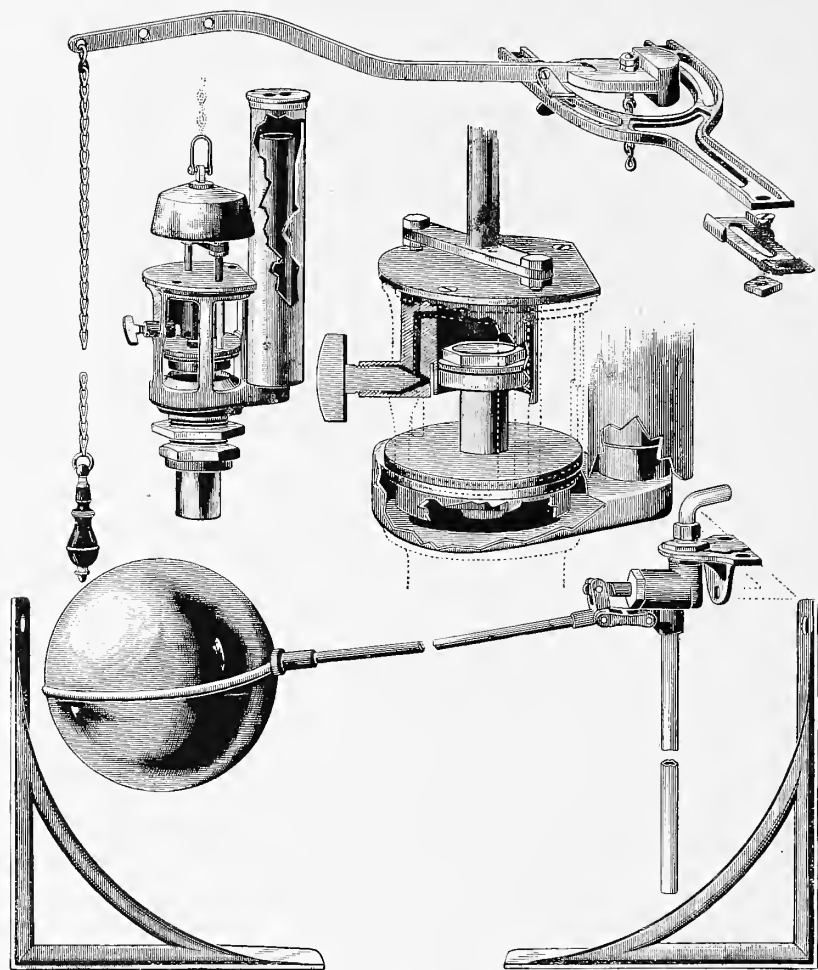

PLATE 124-B.

The No. 4 standard tank fittings can be furnished for any size tank.

In ordering please give inside length, width and depth.

No. 4 standard valve . . . . .	\$5.50
Iron yoke and lever . . . . .	.75
Patent ball valve and copper ball . . . . .	1.50
Japanned iron brackets . . . . .	per pair, .35
Nickel plated chain and wood pull . . . . .	.50
Price per set . . . . .	\$8.60

No. 6 DOUBLE COMPARTMENT TANK.

WITH DETACHABLE CAST IRON INSIDE BOX AND 4 INCH RUBBER SEAT VALVE.

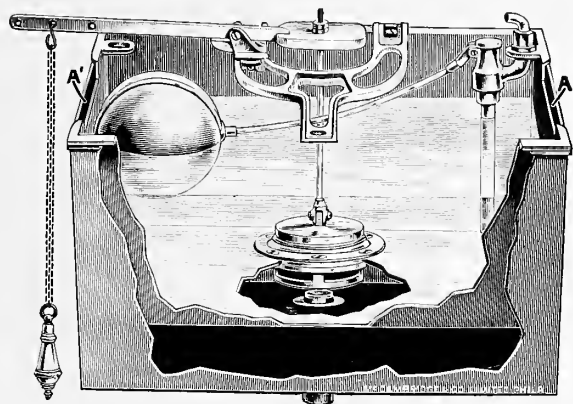

PLATE 125-B.

The No. 6 tank consists of two separate boxes, one fitting inside the other. The space between the two boxes is quickly filled with water by lifting the large valve in the upper box, securing a good flush to the closet and a slow after-fill for both trap and pool. The simple cutting down of the upper box at each end, *A A*, furnishes a safe overflow. As the inside tank is entirely separate from the outside one, it can be lifted out and cleaned, thereby rendering it far more sanitary than the ordinary service box tank which has its lower box closed against inspection.

In the No. 6 tank the inside box is always of cast iron galvanized, unless ordered enameled; the outside may be of painted, galvanized or enameled iron, or copper-lined wood.

For styles of beaded and paneled hard wood No. 6 tanks see tanks over water closets on preceding pages from 68 to 85.

NO. 6 IRON TANK.

WITH BRACKETS, CHAIN AND PULL.

Outside dimensions, inches . . . . .	22½ x 12½ x 12¼ deep.
Painted iron tank with japanned iron brackets . . . . . each,	\$13.50
Galvanized or enameled tank with galvanized iron brackets . . . . . "	15.50

NO. 6 COPPER - LINED TANKS.

WITH GALVANIZED INSIDE BOX, BRACKETS, CHAIN AND PULL.

Outside dimensions, inches . . . . .	24 x 13 x 13 deep.
Pine tank with japanned iron brackets . . . . . each,	\$12.50
Beaded tank, stained poplar with bronzed iron brackets . . . . . "	15.00
Beaded tank, stained poplar with nickel plated brass brackets . . . . . "	17.50
Beaded tank, walnut, cherry, ash or oak with bronzed iron brackets . . . . . "	17.00
Beaded tank, walnut, cherry, ash or oak with nickel plated brass brackets . . . . . "	19.50
Paneled tank, walnut, cherry, ash or oak with bronzed iron brackets . . . . . "	20.00
Paneled tank, walnut, cherry, ash or oak with nickel plated brass brackets . . . . . "	22.50
Paneled tank, mahogany with nickel plated brass brackets . . . . . "	25.00

The No. 6 tank can be furnished instead of No. 4 tank for any water closet illustrated from Plate S6-B to 122-B at the same price.

No. 7 AUTOMATIC AFTER-WASH TANK.

PATENT APPLIED FOR.

ESPECIALLY DESIGNED FOR USE WITH THE "SYPHO" WATER CLOSET, BUT CAN BE USED WITH ANY CLOSET REQUIRING AN AFTER-WASH TANK.

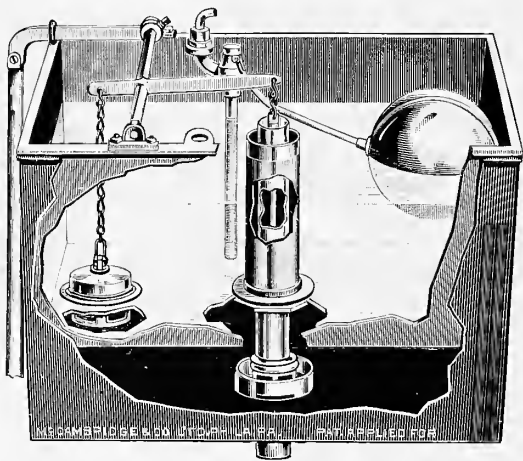

PLATE 126-B.

The No. 7 tank, like the No. 6, on page 91, consists of two separate boxes, one fitting into the other, and can be easily taken apart for cleaning. The valves are operated by a weighted rod extending to the seat lever, and is much more reliable than the usual chain attachment, which is liable to stretch and thereby render the tank inoperative. By reversing the inside box and changing the levers the valve action may be had on the opposite side to that shown in the illustration.

In the No. 7 tank the inside box is always of cast iron galvanized, unless ordered enameled; the outside box may be of galvanized or enameled iron, copper-lined pine or hard wood.

NO. 7 CAST IRON AUTOMATIC TANK.

WITH GALVANIZED OR ENAMELED INSIDE BOX, BRACKETS AND CONNECTING ROD.

Outside dimensions, inches . . . . .	23 x 13 x 15 deep.
Enameled or galvanized iron with galvanized brackets . . . . .	each, \$22.00

NO. 7 COPPER-LINED AUTOMATIC TANK.

WITH GALVANIZED INSIDE BOX, BRACKETS AND NICKEL PLATED CONNECTING ROD.

Outside dimensions, inches . . . . .	24 x 14 x 16 deep.
Pine tank with japanned iron brackets . . . . .	\$18.50
Beaded tank, stained poplar with bronzed iron brackets . . . . .	21.00
Beaded tank, stained poplar with nickel plated brass brackets . . . . .	24.50

The short hopper can be furnished with either S, 3/4 S or 1/2 S trap, which is clamped to the hopper by a new device, allowing the trap to be set in any position desired.

The adjustable flushing rim in these hoppers is a very important feature, as by it a perfectly uniform distribution of water over the interior surface is secured.

PLATE 142-B.

Short hopper with S trap.

Price complete as illustrated . . . . . \$13.50

Price complete as illustrated . . . . . \$15.00

The short hopper can be furnished with either S, 3/4 S or 1/2 S trap, which is clamped to the hopper by a new device, allowing the trap to be set in any position desired.

The adjustable flushing rim in these hoppers is a very important feature, as by it a perfectly uniform distribution of water over the interior surface of hopper is secured.

PORCELAIN AND BROWN GLAZED EARTHENWARE KITCHEN SINKS.

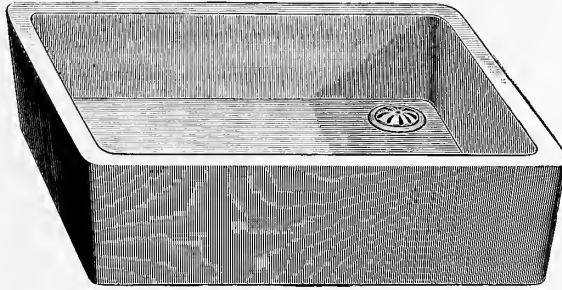

PLATE 145-B.

With 2 inch brass plug and coupling and nickel plated strainer.

							PORCELAIN.	BROWN GLAZED EARTHENWARE.
Size, 30 x 20 inches outside by 7 inches deep inside . . . . .							\$22.00	\$11.00
" 36 x 23 " " " 7 " " " . . . . .							26.00	14.00

" 48 x 24 " " " 7 " " " . . . . .							42.00	20.00

PORCELAIN PANTRY SINKS.

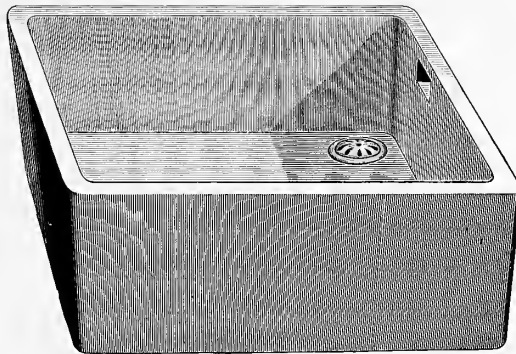

PLATE 146-B.

With 1 1/4 inch brass plug and coupling with rubber stopper and nickel plated overflow strainer.

Size, 20 x 14 inches outside by 5 inches deep inside . . . . .							\$13.00
" 23 x 16 " " " 6 " " " . . . . .							16.00
" 24 x 17 " " " 6 " " " . . . . .							18.00
" 28 x 17 " " " 6 " " " . . . . .							21.00
" 30 x 20 " " " 7 " " " . . . . .							23.00

BROWN GLAZED EARTHEN WASH TUBS.

WITH BRONZED IRON STANDARDS AND ASH TOP.

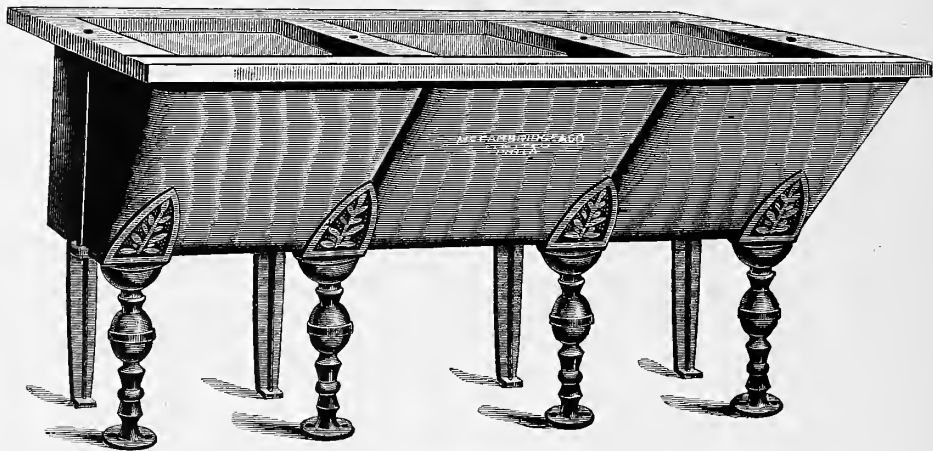

PLATE 150-B.

DIMENSIONS—Length outside, 29½ inches; width from front to back, outside, 24 inches;  
depth inside, 16½ inches; thickness, 1½ inch.

Brown glazed earthen wash tubs, bronzed iron standards and ash tops . . . . .										per set of two,	\$28.00
"	"	"	"	"	"	"	"	"	"	three,	42.00
"	"	"	"	"	"	"	"	"	"	four,	56.00

NOTE.—In ordering state whether wanted with or without faucet holes in back.

SOLID WHITE CROCKERY WASH TUBS.

WITH GALVANIZED IRON STAND AND ASH TOP.

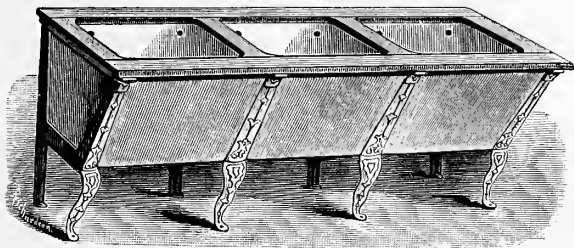

PLATE 151-B.

These tubs are made in three sizes—sizes A, B and C, outside dimensions as follows : Size A, 29 inches long, 25 inches wide, 16 inches deep ; size B, 27 inches long, 25 inches wide, 16 inches deep ; size C, 25 inches long, 25 inches wide, 16 inches deep.  
Thickness, 1¼ inch with heavy flange all around ; weight, set of three tubs complete, about 500 pounds.

One tub without stand or top . . . . .	\$ 18.00
Two tubs, with galvanized iron stands and ash top, bolts and screws . . . . .	44.00
Three tubs, with galvanized iron stands and ash top, bolts and screws . . . . .	65.00
Four tubs, with galvanized iron stands and ash top, bolts and screws . . . . .	86.00
Five tubs, with galvanized iron stands and ash top, bolts and screws . . . . .	107.00
Galvanized iron stands for set of two tubs . . . . .	5.25
Galvanized iron stands for set of three tubs . . . . .	7.00
Galvanized iron stands for set of four tubs . . . . .	8.75
Galvanized iron stands for set of five tubs . . . . .	10.50
Wood top for set of two tubs . . . . .	2.75
Wood top for set of three tubs . . . . .	4.00
Wood top for set of four tubs . . . . .	5.25
Wood top for set of five tubs . . . . .	6.50

SOLID WHITE CROCKERY KITCHEN SINK.

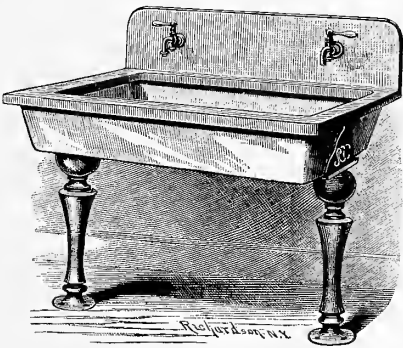

PLATE 152-B.

Sizes outside . . . . .	30 x 22 x 7½	37 x 22 x 7½	42 x 22 x 7½
Price of sink only . . . . .	\$12.00	\$16.00	\$20.00
Galvanized iron stands per pair . . . . .	3.00	3.00	3.00
Ash top . . . . .	1.50	1.50	1.50
	\$16.50	\$20.50	\$24.50
Roll rim sink \$2.00 extra.			

BUTLER'S PANTRY SINKS.

Sizes outside . . . . .	24 x 18 x 8	30 x 18 x 11
Price . . . . .	\$8.00	\$14.00

IMPROVED KITCHEN SINK ON BRACKETS.

PLAIN, GALVANIZED AND ENAMELED, WITH BACK AIR CHAMBERS AND COUPLINGS.

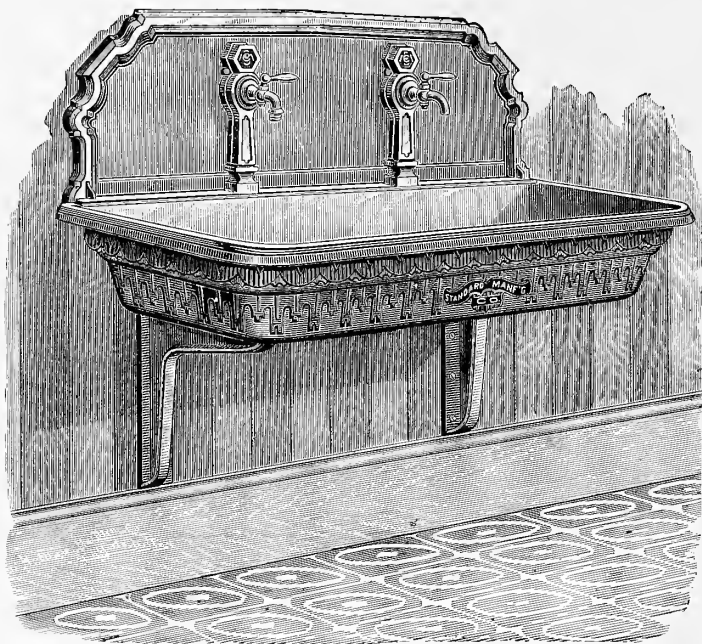

PLATE 153-B.

	PLAIN.	GALVANIZED.	ENAMELED.
30 x 20 x 7 inches deep . . . . .	\$12.00	\$20.00	\$26.00
36 x 22 x 7 inches deep . . . . .	13.75	23.00	30.00
42 x 22 x 7 inches deep . . . . .	15.50	26.00	34.00
48 x 20 x 7 inches deep . . . . .	17.25	29.00	38.00
If sink is furnished with plain back, without air chambers, like Plate 154-B . . . . . deduct	4.00	5.00	6.00

No faucets included in above prices.

Enameled sinks are finished outside in bronze.

# IMPROVED KITCHEN SINK ON LEGS.

PLAIN, GALVANIZED AND ENAMELED, WITH PLAIN BACK.

PLATE 154—B.

	PLAIN.	GALVANIZED.	ENAMELED
30 x 22 x 7 inches deep . . . . .	\$ 9.50	\$18.00	\$21.50
36 x 22 x 7 inches deep . . . . .	11.25	21.00	25.50
42 x 22 x 7 inches deep . . . . .	13.00	24.00	29.50
48 x 22 x 7 inches deep . . . . .	14.75	29.00	33.50
If sink back is furnished with air chambers, as shown in Plate 153—B . . . . . add	4.00	5.00	6.00

Enameled sinks are finished outside in bronze.

In plate 154—B the waste passes through either the right or left leg, as desired. If waste cannot be trapped under the floor, the strainer can be furnished in centre of sink.

## RAISED SEAT COMPRESSION WORK WITH STUFFING BOXES.

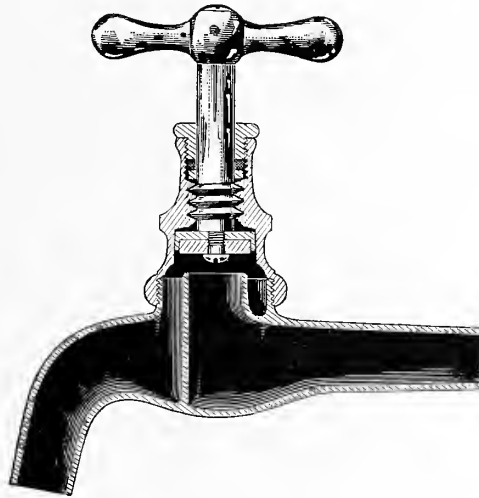

PLATE 200-B.

We invite the attention of all users of brass faucets to our improved "Raised Seat Compression Work," illustrated on pages 123 to 130. The above illustration will be readily understood. The seat, instead of being in the bottom of the faucet, is elevated to a point slightly above the top of the body, so that when the cap is removed the seat is the highest point. The advantage of having the seat in an accessible position is so obvious that it is scarcely necessary to enter into further details regarding its merits. Lead clippings and other foreign substances which so often destroy valve seats will scarcely find a lodgment on the *raised seat*, and if they should by any chance adhere to it can be readily removed. We recommend and furnish with these faucets a metallic washer unless the ordinary composition washer is preferred.

WE will issue from time to time additions to Catalogue "B," in the shape of loose leaves, trimmed to fit this book. In order that these leaves may not be lost, we request all holders of Catalogue "B" to attach them to the stubs provided for the purpose and thus make them a part of the Catalogue.

---

*Cut out this leaf at the point where dotted line intersects and paste new leaf to the remaining stub.*
